\$330 worth of food for 2019, including \$186 for Market Basket.

I am guessing, but the MB order is somewhat like:

3-4 Assorted Salad Rolls party platters for 24 people at \$33 each (used to be \$24) - see <https://www.shopmarketbasket.com/party-platters>

8-10 MB Large cheese pizzas at about \$10 each

Then we orders chips, condiments, the wives made and brought sweets, water, and soda. You will also need napkins, plastic silverware, plates

Do we know how much food we ordered?

Here are some old receipts (Petersons is now called PEAK).

Do we have notes or receipts for tables and food from the 2020 show. Like what did we order and from whom?
